Chrono Plus – Time Tracker and Task Manager for iPhone, iPad, and Mac

SUMMARY:

XwaveSoft today introduces Chrono Plus 1.0, their new time tracker for iOS devices. Chrono Plus is a convenient task manager and time tracking tool that offers a variety of handy features. These include the ability to track time and earnings, project visualization reports, and auto-generated invoices that can be immediately e-mailed to a client, saved to a cloud storage or shared to DropBox. Also available for Mac, Chrono Plus can be synched across all devices.

BODY:

Odessa, Ukraine – XwaveSoft today is proud to announce the release and immediate availability of Chrono Plus 1.0, their new time tracking app for iPhone, iPad, and iPod touch. Chrono Plus is suitable for anyone who needs to manage their time and tasks more effectively and efficiently. A must-have for any freelancer or paid-by-the-hour professional, it features a sleek, intuitive interface for cost calculation and invoicing. Moreover, Chrono Plus syncs between devices to ensure users have the most updated information.

Feature Highlights:

- * Sleek and intuitive User Interface
- * Easy and fast creation of tasks and subtasks in multi-level task manager
- * Color marking and search for better navigation
- * Tracks completion of tasks and projects
- * Time and cost tracking
- * Multiple hourly rates
- * Built-in invoice generator (formatted in MS Excel)
- * Ability to e-mail invoices to clients or save them to external applications
- * Project visualization using graphs and charts
- * Full synchronization between iPad, iPhone and Mac
- * Mac version is also available

Chrono Plus offers users a fast and efficient manager of personal tasks, cost calculation, and invoicing with a simple and intuitive display. To create projects, users simply tap the folder icon. Tasks can be created in subfolders by tapping the forward icon. All titles can be edited by tapping twice on the text. By swiping left, users can apply color marking, edit the hourly rate, and view the start, end, and duration times of a task or project. They can also mark a task or

project complete. For added convenience, Chrono Plus can sync tasks and tracking information between devices including the iPhone, iPad, iPod touch, and Mac.

The reporting feature of Chrono Plus provides the user with a visual representation of their time and tasks. Reports are furnished in the form of diagrams or pie charts and can provide a clear picture of the time and cost involved in each task. They can also report on the effort and cost value of each within a project's timeline.

Chrono Plus includes a built-in generator that creates detailed invoices in an Excel (.xlsx) format. These invoices reflect a set date range and provide a complete line-by-line report on the services rendered, taxes applied, and detailed information on both the sender and recipient. Users have the option of adding a detailed description and all invoices can be instantly e-mailed to clients. Invoices created in Chrono Plus can also be saved to a cloud storage or external applications like Dropbox, Google Drive, and Evernote.

"Chrono Plus is the most effective and efficient app to manage tasks and track time and costs," explains Denys Yevenko of XwaveSoft. "For added convenience, Chrono Plus is even capable of full synchronization between all iOS and OS X devices. Chrono Plus is a must-have for any freelancer or paid-by-the-hour professional who requires fast and efficient management of tasks, cost calculation, and invoicing."

Device Requirements:

- * iPhone, iPad or iPod Touch
- * Requires iOS 7.0 or later
- * [xxx] MB

Pricing and Availability:

Chrono Plus is only \$2.99 (USD) and available worldwide exclusively through the App Store in the Productivity category. Review copies are available on request. Chrono Plus is also available for Mac OS X.
