## BODY:

Odessa, Ukraine – XwaveSoft today is proud to announce the release and immediate availability of Chrono Plus 1.0 for Mac, their powerful new time tracking tool and task manager. Suitable for anyone who needs to manage their time and tasks more effectively and efficiently, Chrono Plus for Mac features a sleek, intuitive interface for cost calculation and invoicing. With a simple click, users can set up tasks and sub-tasks in a multi-level task manager. For added convenience and to ensure users have the most updated information, Chrono Plus for Mac syncs is capable of full synchronization of tasks and tracking information between devices including the iPhone, iPad, iPod touch, and Mac.

Chrono Plus for Mac provides users with a fast and efficient manager of personal tasks, cost calculation, and invoicing with a simple and intuitive display that is easily accessible from the display bar at the top of the screen. To create tasks, users simply click on the clock icon and to create folders, users click on the folder icon. All titles can be edited by double-clicking twice on the text. To create a multi-level task manager system, folders and tasks can be organized and sorted through convenient drag-and-drop functionality. After choosing a folder or task, users can apply color marking, edit the hourly rate, mark the project complete, and view the start, end, and duration times of a task or project by clicking on the sidebar icon at the top of the interface.

### Feature Highlights:

- \* Easy and fast creation of tasks and subtasks in multi-level task manager
- \* Color marking and search for better navigation
- \* Tracks completion of tasks and projects
- \* Time and cost tracking

- \* Multiple hourly rates
- \* Built-in invoice generator (formatted in MS Excel)
- \* Ability to e-mail invoices to clients or save them to external applications
- \* Project visualization using graphs and charts
- \* Full synchronization between iPad, iPhone and Mac
- \* Also available for iPhone and iPad

The reporting feature of Chrono Plus for Mac provides the user with a visual representation of their time and tasks. Reports can be created for the specific tasks/projects or for all tasks/projects according to a specific date range or cost value. Reports are furnished in the form of graphs and pie charts to provide a clear picture of the time and cost involved in the task/project.

Chrono Plus for Mac's built-in generator can provide detailed invoices in an Excel (.xlsx) format that can be easily customized. Reflecting a set date range, the invoices provide a complete line-by-line report on the services rendered, hourly rate, taxes applied, and detailed information on both the sender and recipient. Users also have the option of adding a more detailed description, additional comments, invoice number, and instructions for payment. All invoices created through Chrono Plus for Mac can be instantly saved and sent as an e-mail attachment to clients.

"Suitable for anyone who needs to manage their time and tasks more efficiently, Chrono Plus for Mac is an absolute must-have for any freelancer or paid-by-the-hour professional who requires the most powerful and effective app to manage tasks and track time and costs," says Denys Yevenko of XwaveSoft. "Also available for iPhone and iPad, Chrono Plus for Mac can sync between all your iOS and OS X devices. And with a host of handy features, Chrono Plus for Mac can provide fast and efficient management of tasks, cost calculation, invoicing, and much more.
